**Earlex Spray Stations** are the best way to paint many items both inside or outside. Ideal for large or detailed jobs. Earlex Spray Stations can spray a wide range of different materials from oil based to water based paints. Earlex Spray Stations have an air jacket on the gun which ensures minimal overspray. This means you will save time in preparation, complete the job faster and get a great finish in the process. You'll also save money as the high paint transfer efficiency will make your paint go further.

- **Faster than a brush or roller.**
- **Spray inside or outside.**
- **Adjustable fan width - spray detailed jobs or large areas.**
- **Clean up the gun in seconds, turbine requires no maintenance.**
- **Optional tips/needles available**
- **Portable – so you can use in many areas.**
